This luncheon will be the **last national honoree event** sponsored by the National Women's History Alliance. In the future, we hope local groups will choose their own honorees, while we shift our focus on being the clearinghouse and the primary hub for women's history information and referrals, promoting and networking with the many women's history-related groups.

Our goal is to encourage and support individuals, organizations and independent efforts that celebrate women's achievements and contribute to writing women back into history.

Celebrate Women's Equality Day 2021

The 2021 theme continues our recognition and celebration of the Suffrage Centennial which honors the women who have fought for US women's right to vote and who today fight against voter suppression and other obstacles to women being heard

Many of you have asked about a Women's Equality Day Resolution for your city council, community group, government agency, workplace or military base. Please feel free to edit the following one to meet your needs and propose it wherever it might make a difference.

Then let us know when it is adopted!
